

Malmbergs LED Driver

350mA 10W 1-10V

Dimmable

**Product Code:** 9953038
Stock Qty: 1

Product Description

Constant current 350ma LED driver that can be used to power LED lights that require a 350ma input. Multi-function LED driver that can be used with non dimmable lights or has 1-10V dimming and push to dim functions. Has a wide output voltage of 6 to 30V DC which allows it to be used with a broad range of LED lights. With mounting holes for fixing onto surfaces such as kitchen cabinets etc.

Key Features

- Wattage: 10W
- Voltage: Mains 230V / Output 350ma
- Voltage range: 6-30V DC
- Constant current lights must be wired in series.
- Can be dimmed using push to dim function or 1-10V requires analogue dimmer.
- Manufacturer: Malmbergs
- Product code: 9953038
- Guarantee: 5 years

Product Specification

Specifications

Product Code	9953038
GTIN	7392529137101
Manufacturer	Malmbergs
Product Types	LED Driver
Dimensions	Located Below Specifications Table
Dimmable	Yes
Operation Mode	Constant Current
Output Current	350mA
Wattage	10 W
