

Insulation Cover Guard For Click Inceptor Nano & Pico FG

**Product Code:** OVISC1020
Stock Qty: 20

Product Description

Insulation cover guard that allows the Click Inceptor Nano and Click Inceptor Pico downlights to be covered with thermal insulation. This cost effective accessory converts the Click Nano or Click Pico into an insulation coverable downlight.

Key Features

- Insulation cover guard
- Sold and priced individually
- Manufacturer: Ovia Lighting
- Product code: OVISC1020

How to Install

1. Align the insulation support clip with the downlight springs ensuring the slot is facing towards the inside of the spring bracket.
2. Gently squeeze the bracket arms inwards to ensure both slots can slide fully through the spring on the inside of the spring bracket.
3. Slide both slots fully through the spring on the inside of the spring bracket to ensure attachment.
