

Click Inceptor Nano & Pico Insulation Support Bracket

Product Code: OVISC1020
Stock Qty: 80

Product Description

Insulation support bracket for use with Click Inceptor Nano or Pico downlights. Allows the Inceptor Nano or Pico to be covered with thermal insulation.

Key Features

- Insulation cover guard
- Sold and priced individually
- Manufacturer: Ovia Lighting (Click Scolmore)
- Product code: ISC1020

How to Install

1. Align the insulation support clip with the downlight springs, ensuring the slot is facing towards the inside of the spring bracket.
2. Gently squeeze the bracket arms inwards to ensure both slots can slide fully through the spring on the inside of the spring bracket.
3. Slide both slots fully through the spring on the inside of the spring bracket to ensure attachment.
