

LED Aluminium Profile 35mm Wide For LED Tape (Per Metre)

**Product Code:** AS35-RAIL
Stock Qty: 14

Product Description

Wide aluminium profile for LED tapes that has a width of 35mm, suitable for LED strip tape that is 30mm. Supplied with an opal diffuser that provides a smooth and even light distribution. Priced per metre is available in 2 metre lengths or can be cut down to size. This LED profile rail isn't supplied with any end caps or mounting brackets, see related products for those. Also available are a suspension mounting set, 180 degree coupler and a 90 degree bend. Fitted with an internal mounting section that allows couplers and bends to be fitted neatly and securely inside.

Ideal for use in professional lighting installations to provide a seamless lighting effect with wider, higher output LED strip tapes.

Key Features

- LED aluminium profiles protect LED strip and perform as a heat sink to help maintain lifetime.
- Installation: Surface mount, wall mount with additional clips. Suspended mounted with AS35-SWS suspension set.
